TANVI PATEL

Front End Developer | Full Stack Developer

847-308-0102 | tanvih0501@gmail.com | Chicago, IL | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Front End Developer with nearly 10 years of experience specializing in CMS platforms and modern web technologies. Proficient in HTML, CSS, JavaScript, and PHP with expertise in building and optimizing user-friendly, responsive websites. Recently expanded technical skills by developing React-based projects, demonstrate strong problem-solving abilities, API integration, and state management. Passionate about writing clean, maintainable code and continuously learning emerging technologies.

TECHNICAL SKILLS

Web Development Technology: *HTML, HTML5, CSS, CSS3, JavaScript, TypeScript, PHP, JSON, REST, Java*
Content Management System (CMS): *WordPress, PrestaShop, OpenCart, Shopify*
Frameworks/Libraries: *jQuery, Spring Boot, Bootstrap, ReactJS, Angular, Node.js, Express.js, React Native, Tailwind CSS*
Database: *MySQL, MS SQL Server, PostgreSQL*
CSS Preprocessors: *SASS, LESS*
Debugging Tools: *Firebug, Chrome Dev Tools*
Developer Tools: *Visual Studio Code, Dreamweaver, Notepad++*
Operating System: *Windows, macOS, Linux OS*
Version Control: *GIT, GitHub*
State Management: *Redux, ReactJS Context API*
SDLC Methodologies: *Agile, Scrum, Kanban, Waterfall, CI/CD*
Designing Tool: *Adobe Photoshop, Figma*
Testing framework: *Cypress*, *Jest*

TECHNICAL PROJECTS

Hacktoberfest 2024 Contributor | **Front End Developer** | Oct 2024 | [Live Site](#)
- Actively contributed to multiple open-source repositories on GitHub by submitting 121 pull requests, fixing bugs, and enhancing features.
- Utilized HTML, CSS, and JavaScript to improve the front-end functionality of open-source projects, ensuring responsive and visually appealing user interfaces.
- Employed Vite as a build tool for faster development and optimized bundling, improving project performance and efficiency.
- Collaborated with developers in the open-source community, following best practices for version control and code reviews.

React Native App| **Full-stack Developer** | March 2024 | [GitHub Repo](#)
- Developed Mobile Application with PERN Stack.
- Added the push notification feature within the app.
- Implemented stack and tab navigation, enhancing the app's navigational structure and providing users with intuitive navigation pathways.
- Integrated PostgreSQL and REST APIs for secure interaction with the back end and conducted thorough testing in Expo Go Workflow.

React App| **Full-stack Developer** | Jan 2024 | [Live Site](#)
- Built Single Page Applications with React.js, Redux, Express.js, Node.js, REST API, TypeScript, and PostgreSQL.
- Used RTK query for fetch data and attached Bearer token for secure usage of API.
- Applied Redux to resolve application's global state management, especially for user login status.
- Utilized JSON Web Token (JWT) authentication for secure and efficient user authorization, ensuring data integrity and user privacy throughout the application.

Prestashop Ecommerce Website | **Front End Developer** | May 2020 | [Live Site](#)
- Developed with Prestashop, PHP, Bootstrap, HTML, CSS and jQuery.
- Provided training and support to clients for managing their PrestaShop online stores efficiently.
- Customized PrestaShop themes and modules to meet client requirements.
- Implemented SEO best practices to improve website visibility and search engine ranking.

WORK EXPERIENCE

Full Stack Developer | *Treevah* | Remote   March 2025 – Present
- Develop and maintain scalable React.js web applications, focusing on reusable components to improve efficiency and reduce code redundancy.
- Implement state management strategies using Redux and React Context API to optimize application performance and data flow.
- Evaluate and code complex technical requirements for successful implementation.
- Collaborate with the back-end team to develop and integrate APIs, ensuring smooth data flow and efficient user experiences.

Sr. Front End Developer | *Webdigify Solutions* | Remote   Oct 2020 – April 2022
- Generated countless PrestaShop themes using PHP web technologies.
- Designed and launched over 40 responsive websites leveraging Bootstrap, Spring Boot, and JavaScript, leading to an increase in conversion rates of 30%.
- Conducted daily maintenance of code, debugging issues and solved client's problems.
- Collaborated with a team of 10 developers to resolve front-end and CSS issues.
- Mentored junior developers, improving team productivity and code quality, which resulted in faster development cycles and reduced errors.
- Teamed up with UX and UI designers to integrate user feedback into the design process for continuous improvements.

Sr. Front End Developer | *Freelance-Canada Private Client* | Remote   June 2020 – Oct 2020
- Developed and maintained 20+ user-facing web pages using HTML, CSS, Java, JavaScript, and jQuery.
- Adopted Bootstrap front-end framework for faster and easier web development.
- Managed and tracked software changes via GitHub, enhancing version control and collaboration efficiency across teams.
- Ensured cross-browser and device compatibility by validating code for security, structure, and performance, reducing site errors and increasing accessibility across platforms.

Sr. Front End Developer | *Templatetrip*   Jan 2018 – June 2020
- Led the development of high-quality themes for WordPress, improving design accuracy and user experience.
- Gained hands-on experience with PHP and MySQL, working on basic back-end tasks such as managing databases and handling form submissions.
- Promoted to Senior Developer after two years due to strong performance, leadership, and consistent high-quality deliverables.
- Conducted unit testing to ensure code reliability before deployment.
- Reviewed and provided feedback on peer code to maintain best practices and code quality.

Jr. Front End Developer | *Templatetrip*   Dec 2015 – Jan 2018
- Assisted in converting PSD mock-ups into HTML, PrestaShop, and OpenCart themes, ensuring pixel-perfect design implementation.
- Worked on integrating third-party APIs into front-end applications to enhance user functionality.
- Collaborated closely with senior developers to troubleshoot and optimize website performance.
- Gained hands-on experience with unit testing and debugging tools for front-end development.

EDUCATION

The Cloud Bootcamp   Feb 2025
Multicloud Devops & AI Certificate

Grace Hopper Web Development Immersive Bootcamp   March 2024
Software Engineering Certificate

Udemy   Sept 2023
React - The Complete Guide

Parul University, Gujarat, IN   June 2015
Bachelor of Computer Science & Engineering
